

Beyond Comfort.

Beyond Mesh.

Steelcase Karman™

The Kármán Line is where the earth's atmosphere meets space, weightlessness becomes possible and where going beyond becomes a reality. That spirit and feeling is captured in Steelcase Karman.

Its ultra-light frame and patented hybrid seat with integrated cushioning, minimizes painful pressure points found on other mesh chairs.

Steelcase Karman Goes Beyond Comfort

Steelcase Karman goes beyond other mesh chairs by delivering comfort in an entirely new way. Its design relies more on physics than mechanism, intuitively responding to your movement and weight. Steelcase Karman provides effortless comfort.

Steelcase Karman Goes Beyond Mesh

Intermix is Steelcase Karman's proprietary performance textile. Using patented Shrinx technology, Intermix is central to Steelcase Karman's comfort, performance and aesthetic.

When integrated with Steelcase Karman's ultra-light frame, Intermix provides ergonomic support for people of all shapes and sizes.

Designed with sustainable materials and the least number of components necessary, Steelcase Karman weighs only 29 pounds – a responsible choice for work and the environment.

Steelcase Karman Goes Beyond Basics

Unique from other mesh chairs, Steelcase Karman goes beyond black, white and gray. It offers 13 Intermix colors, a wide range of frame and base finishes and its unique weaving process offers diverse textile styles, including an all-new color shifting option.

Steelcase Karman's light-scale aesthetic looks great in the office or home – any place work happens.
